

# **Journeyman/Apprentice Lineman - Volga, SD**

## **Job Description**

Safely and efficiently maintain, construct and troubleshoot underground electrical systems, substations, street lighting, as well as minimal maintenance of overhead power lines. Assists other departments as necessary.

## **Required Skills**

Requires frequent sitting, standing, walking, and climbing structures and ladders; and occasional bending, climbing stairs, kneeling, reaching, crawling, use of keyboard/computer, pushing/pulling up to 150 pounds, and lifting up to 50 pounds. Equipment used includes straight trucks over 26,001 pounds, hot line tools, hydraulic tamps, drills, air operated tools, chain saws, and other associated equipment used in the construction and maintenance of power lines. Finger dexterity, good color vision and hearing, are required. On a daily basis, requires the ability to weigh/measure, read, write, and perform basic arithmetic. May require working under pressure. Continuously working in areas of electrical risks (energized power lines 120 volts thru 7200 volts) and at heights of up to 60 feet; frequently in conditions of extreme heat or cold and dirt/dust; and occasionally around fumes, chemicals, vibration, and noise.

## **Required Experience**

Must be able to climb power line structures to heights of 60 feet while the lines are energized. The incumbent must be able to perform all classes of line construction, maintenance and operation work, with emphasis on safety, skill and efficiency. This is done in an energetic, friendly, team oriented, and professional atmosphere. The incumbent must have a distinct understanding of electricity, including erecting, assembling, and splicing conductors, cables. Must have a valid driver's license and be able to secure a valid SD Class B Commercial driver's license within the first 90 days of employment.
